REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Voters of the Town of Huntington:

Herewith is submitted my fifth annual report as Superintendent of Schools.

Four elementary schools have been maintained as in former years.

The schools with enrollments are as follows:

<i>School</i>	<i>Enrollment</i>
Catherine Ross Primary.....	31
Catherine Ross Grammar.....	26
Center School	16
Hanksville School	16

Attendance in all schools has been fairly good. Since school age is a comparatively short period in one's life it is the duty of every parent to see that his children attend school regularly. Failure to do so means that children are being deprived of that training which will best fit them for their future work.

The first requisite of good schools is a staff of competent teachers. In this respect, Huntington is fortunate as few changes have been necessary during the past few years.

To insure regular attendance of those who live at some distance from the schools, transportation is provided at a considerable expense to the taxpayers.

During the past school year thirty-eight pupils have been furnished transportation at a cost of \$957.80, or an average of \$25.20 per pupil.

In general, the courses of study have remained the same as last year. Those which are recommended by the State Department of Education are being followed. Continued emphasis has been placed upon reading. As a result, many of the pupils are developing a desire to read good books. Evidence of this is being shown by the increased number of pupils who receive certificates from the State Department each year.

On account of the impossibility of securing the services of a school nurse during the current year this project has been discontinued. This is unfortunate since much benefit from this service was derived by the children.

School buildings are in fairly good condition. New screens and screen doors have been added to some of the schools. A new entrance has been added to the Hanksville School. This was very much needed to protect the schoolroom from storm.

I would recommend that the interior of some of the schools be redecorated next year.

Since the School Board is now allowed by law to spend a sum not to exceed three percent of the money provided for current expenses for health services, I would recommend that provision be made for such service as soon as possible.

In conclusion, I wish to commend the townspeople and members of the School Board for the interest and cooperation which have been extended to all those who are attempting to maintain progress in the schools.

Respectfully submitted,

EDWIN T. MALONEY,

Superintendent of Schools.

W. Arthur Simpson, director of the Old Age Assistance Department at Montpelier, states as follows:

"Payments of Old Age Assistance to persons applying from your town amounted to \$1,830 during the year January 1, 1939 to December 31, 1939.

"The number of recipients in December, 1939, was 11.

"The resources of this department and its ability to make payments are determined by the state appropriation which is matched by federal funds. During recent months it has not been possible to grant assistance to all new applicants who have been found eligible after investigation. The cooperation of overseers in extending temporary aid and supplementary medical services has been very helpful.

"The administrative expenses of the department during the year was 3.9%."

The Huntington Cemetery Trust Fund, at Burlington Savings Bank, is \$3,925.96 on February 1, 1940.

We have examined the accounts of all the town officers and believe them to be correct.
